# NOVEMBER 4, 2014 CHERRY HILLS VILLAGE COORDINATED ELECTION BALLOT QUESTION 2F

## THE BALLOT QUESTION

Shall the City of Cherry Hills Village, without increasing taxes by this measure, and to restore local authority that was denied to local governments by the Colorado General Assembly and foster a more competitive marketplace, be authorized to provide high-speed internet, including improved high bandwidth services based on new technologies, telecommunications services, and/or cable television services to residents, businesses, schools, libraries, non-profit entities and other users of such services either directly or indirectly with public or private sector partners, as expressly permitted by Article 27, Title 29 of the Colorado Revised Statutes?

## WHAT IS BEING ASKED OF VOTERS?

Cherry Hills Village voters are being asked to restore the City's pre-2005 right to provide high-speed internet, telecommunications services, and/or cable television services, either directly or through public-private partnerships. The City does not currently own any fiber optics networks or similar assets, but is asking the voters to restore the right for any future networks or other City-sponsored telecommunications initiatives.

## HISTORY

- Until 2005, municipalities throughout Colorado enjoyed the right and authority to use municipal communications network infrastructure to provide high-speed Internet, advanced telecommunications, and cable television services to their residences and businesses. Only a few did so, although some governments have studied how to leverage their network assets to promote a more competitive private sector market.
- In 2005, the State Legislature enacted Senate Bill 05-152 (codified in Article 27 of Title 29, C.R.S.) to revoke and deny all Colorado municipalities the right of using municipal communication network facilities, improvements, and fiber optic infrastructure to provide directly or indirectly high-speed Internet, advanced telecommunications, and cable television services to residents and businesses.
- Senate Bill 05-152 expressly authorizes every local government to submit a ballot question to the local voters to reauthorize and reclaim the local right to use the municipal communications networks, including but not limited to fiber optic infrastructure to provide high-speed Internet, telecommunications, and cable television services to residents and businesses, and to enter into public-private partnerships to promote broadband network deployment.
- Although the City of Cherry Hills Village does not currently own any municipal fiber optic infrastructure or other communications network assets, future construction and use of such infrastructure could likely be used to increase competition and potentially decrease costs of services to residents and businesses by providing opportunities to private service providers to partner with the City to use the City's fiber optic infrastructure to deliver services to residents and businesses, or in some cases, for the City to directly provide services.
- The City Council has determined it is in the best interests of the City to refer a ballot question to the voters concerning the City's ability to provide directly or indirectly, including through partnerships with private companies high-speed internet, advanced telecommunications, or cable television services, as authorized pursuant to C.R.S. Section 29-27-201.

## PROS & CONS OF BALLOT QUESTION 2F

### THOSE IN FAVOR BELIEVE:

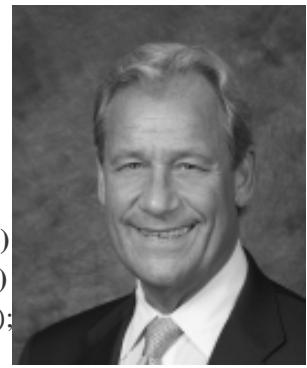

- Cities should have local control on critical issues such as the telecommunications needs of the community. This important issue should be decided at the local level as a matter of self-determination. A yes vote will restore Cherry Hills Village's legal right and ability to partner with public and private sector partners, and to utilize public assets to provide these services where appropriate.
- Although Cherry Hills Village does not have an existing fiber optic infrastructure or similar communications network, any future network could be used either directly or in partnership with public or private sector partners to facilitate access to faster and higher capacity advanced telecommunications and Internet services. Through competition among private providers using this network, citizens could potentially receive these advanced services at a lower cost.
- Cities should have the right to fully leverage community-owned infrastructure in order to encourage economic growth, increase jobs, improve the community's ability to compete for primary employers, and to support education, the arts, cultural activities and health care organizations.
- Ballot question #2F will authorize the City, without increasing taxes, to explore and provide opportunities for the provision of telecommunications services, high-speed internet and/or cable services to the City's highly educated residents, businesses, non-profits and other users.
- The goal and benefit of undergrounding overhead utility lines could be enhanced, and additional benefits provided to City residents, by re-establishing the City's authority lost due to Senate Bill 05-152.

### THOSE OPPOSED BELIEVE:

- Cherry Hills Village residents and businesses are satisfied with the availability, quality and costs of services provided by the current telecommunications companies, so there is no reason for the City to be involved.
- Local government should not be involved in the telecommunications services industry. By Cherry Hills Village putting this measure on the ballot, the City is expanding government. This is not the role of local government.
- Private sector companies built their existing fiber optic networks with private capital at no cost or risk to the taxpayers and bear the entire risk of their investment. The City should not be allowed to use any future publicly-funded communications network infrastructure for direct provision of competitive services or to partner with private businesses that may offer competitive services.

Editor's Note: "A Message from your Mayor" does not appear in this issue due to the space requirements of the election information

**Issues of concern during the next two to four years:** Preservation and enhancement of our lifestyle, our surroundings, our economic health and our open space. To continue to protect and improve property values in the Village, as I did in having The Wall Street Journal publish a full page story in its Real Estate section last year. To continue the collaboration with CDOT and our neighboring communities in improving our infrastructure so as to alleviate traffic congestion and to enhance the economic vitality of neighboring communities so as to provide goods, services and jobs to our residents. To continue to improve and expand reliable cell phone service throughout the Village so that there are no more "dead spots."

**What do you value most about Cherry Hills Village:** Cherry Hills offers a unique atmosphere that blends the benefits of a suburb adjacent to a major metropolitan area with the fields, wildlife and trails of a rural community.

### **Issues of concern during the next two to four years:**

1. We have a very short time frame in which to act to preserve current open spaces before they are irreparably lost. Hard decisions need to be made quickly and real needs of the Village prioritized.
2. We need to accelerate the process of implementing our Master Plan; maximizing use of existing resources.
3. The Village will be impacted by our neighboring high density communities which overflow into our public streets, trails and parks. Anticipating and planning for the pressure from surrounding communities is vital to preserving the “feel” of the Village.
4. We are experiencing the loss of older trees around the Village. We need to be proactive, rather than reactive, to save our beautiful wooded trails and streets.

**Reasons for seeking office:** I am grateful to have had the opportunity to live in Cherry Hills Village and it is important that it continues to be as wonderful and beautiful for the many generations of Villagers to come.

### **What do you hope to contribute as a Cherry Hills Village elected official:**

I value what I suspect almost all Village residents do, and that is the privilege of being able to live in such a unique community. Within the confines of the Village, you feel like you are in the rural country, with an abundance of trees, open spaces, and friendly faces. Yet, at the same time, we are only a stone's throw and minutes away from a vibrant, multi-cultural city with all the amenities and cultural benefits that provides.

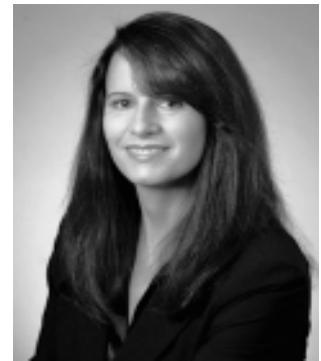

### **Issues of concern during the next two to four years:**

- Ensure that CHV maintains its tranquil and pastoral character in the midst of development activities in surrounding communities, and minimizes any negative impact of such development in terms of traffic, safety and security, use of parks and trails, etc.
- Renew the commitment to implement the Master Plan, consistent with the current views of the Community, and in a prudent and cost-effective manner.
- Ensure that any plans to expand/renovate/rebuild the Village administration building and public works facility are done with maximum Community input, taking into consideration the short and long term needs of the Village and prudently balancing basic necessities and aesthetics with cost considerations.
- Ensure that the Village is able to retain the highly efficient and effective professional staff that is currently responsible for the operation and safety of the Village, and that they have the proper support to carry out their work as they provide the essential services to the Village's residents in a cost-effective manner.

**Reason for seeking office:** I believe that part of a life well-lived includes public service. I feel privileged to live in such a beautiful and unique Community, and I'd like to continue to give back to this place from which my family and I have derived so very much.

**What do you hope to contribute as a Cherry Hills Village elected official:** I look forward to bringing my broad business experience and forthright manner to bear in a practical way to help find creative solutions to any challenges, and to maximizing the benefits of opportunities that the Village may encounter, and to do so with integrity, transparency, and a profound sense of stewardship for this unique community we Villagers call home.

**What do you value most about Cherry Hills Village:** Living in Cherry Hills Village provides the experience of living in a small town – open spaces, rich history, involved citizens – with the access and conveniences of being close to the city.

## Issues of concern during the next two to four years:

Protection of our community character: Our residents repeatedly express that the primary reason for choosing Cherry Hills Village as our home is the pastoral character of the community. A constant priority for the City Council must be the preservation and protection of that character, the city's most valuable asset.

Recommitment to the Master Plan: The city's Master Plan sets the agenda for the city. While progress has been made, there is still considerable implementation work to be done. The current plan is also nearing the end of its 10 year term. This Council will have to evaluate the Master Plan and set the priorities for the next 10 years.

Regional relationships: Continued growth in the metro region creates pressures on our little sanctuary, everything from increased traffic to demands for natural resources. By having positive representation at the regional level, CHV can have a voice in the decisions that will affect our unique community.

Village Center campus: With the completion of the Joint Public Safety Facility, now attention must turn to the rest of the Village Center campus – public works facilities, administration building, and John Meade Park. Because these plans will have a lasting impact, they must be made based upon critical thinking, accurate information, experience, and citizen input.

Parks and open space: Undeveloped land in CHV is vanishing quickly. City Council must focus on the resources and policies to protect our open spaces with due respect for individual property rights.

**Reasons for seeking office:** Cherry Hills Village has exciting opportunities to protect and enhance our community through the addition of new parks, amenities and open space. As in the past, bringing these possibilities to fruition requires vision, creativity, and leadership from our City Council. I am excited to be a part of that legacy.

## What do you hope to contribute as a Cherry Hills Village elected official:

Experience as the incumbent, with over six years of CHV volunteer service;

Integrity relying on principles, not politics;

Problem solving from my rigorous engineering background;

Listening as a public servant; and

Perspective as the youngest member of Council, one of only two women, and the mother of young children.

## LOCAL ARTIST'S WORK ON DISPLAY AT JPSF

*Artist and CHV resident Jane Mahoney*

**Jane Mahoney**, a Cherry Hills Village resident, is currently exhibiting her art in the Community Room of the Joint Public Safety Facility. She works with acrylic and oil, - sometimes created with a palette knife, twig, or old credit card. Most of her painting experience has been in her studio though she has recently done more plein air painting. She describes her plein air work as both exhilarating and challenging to say nothing of hot, buggy, rainy and windy! As you view her work, you will see an ongoing progression from figurative to abstract with a constant emphasis on color.

Jane spent years in the real estate business. She says that she has been preparing to be an artist her whole life, just storing up scenes, the play of light on objects, compositions and dreams as she waited for the right opportunity. "From studying dance to designing doll clothes when I was a young girl, to remodeling, decorating, and building houses with and for clients and myself, I was always developing an eye for beauty," stated Jane. She sold her real estate business a few years ago and #1 on her bucket list was to learn to paint in oil. She has studied at the Art Students League in Denver with the likes of Kim English, Michelle Torres, Molly Davis, and more. Later Mark Nelson became her teacher and mentor. She has been in numerous juried art shows in Colorado. In the last two years, her works have been included in gallery shows at the Act One Gallery in Taos, New Mexico, and Abend Gallery in Denver. She has generously donated her works to various fundraising auctions.

Jane plans to hold a reception in the Community Room on October 10 from 5-7 pm. She would love to have you come and see her work. If that time doesn't work for you, you may visit the Community Room during normal business hours, 8am - 4pm Monday through Friday. If interested in purchasing a piece, please ask Sarah at the Police Department front desk for a copy of Jane's price list, or contact Jane Mahoney directly at **303-829-6083**.
