RE: CRS Activity 510
Annual Progress Report on Implementation of Credited Plan

- Report for the Arapahoe County Hazard Mitigation Plan
- Cherry Hills Village, Arapahoe County, Colorado (CHV)
- Document: Arapahoe County Hazard Mitigation Plan
- Date of Adoption: June 1, 2021
- Five Year CRS Expiration Date: June 1, 2026

1. How can a copy of the accredited Plan be obtained?

By contacting the Community Development Department:
2450 E. Quincy Avenue,
303-783-2721

pworkman@cherryhillsvillage.com
jpeciak@cherryhillsvillage.com
buildingdepartment@cherryhillsvillage.com

By going to the following link:

<https://www.arapahoegov.com/DocumentCenter/View/12172/FINAL-with-Adoption-letters-Arapahoe-County-HMP-1-18-21-Final>

2. Describe how this annual progress report (not the credited Plan) was prepared and how it was submitted to the governing body, released to the media, and made available to the public.

The Director of Community Development prepared this report, in coordination with other City staff, based on their collective knowledge of City operations over the last year. This information was provided to our City Council via staff memo in their regular meeting on April 18, 2023, it was released to the media via press release dated April 17, 2023, and it was posted on the Community Development webpage.

3. Provide a description of the implementation of each recommendation or action item in the action plan or area analysis report, including a statement on how the project was implemented or not implemented during the previous year.

○ Project:

Participation and adoption of the Mile High Flood District's (MHFD) master plans affecting the County.

Status:

In progress. CHV continues to work with MHFD identifying capital projects and participates in studies.

- Project
Participation and adoption of the MHFD Flood Hazard Area Delineation (FHAD) studies affecting the County.
Status:
In progress. CHV continues to participate in efforts with the MHFD to identify FHAD areas.
- Project:
Enforcement of floodplain regulations to limit development in the floodplain.
Status:
In progress. CHV continues to enforce our floodplain regulations.
- Project:
Hazards and stormwater mapping.
Status
The timeline for implementation of this project was two to five years from June of 2021.
- Project:
Continued National Flood Insurance Program (NFIP) participation.
Status:
In progress. As evidenced by participating in this recertification, CHV remains committed to participating in the NFIP.
- Project:
Bellevue Avenue and Clarkson Street drainage improvements.
Status:
Project is no longer feasible. This project was to support a project in a different jurisdiction. That jurisdiction did not fund their project. Therefore, this project will not move forward at this time.

4. Discuss why any objectives were not reached or why implementation is behind schedule.

The one project that is no longer feasible is a result of an adjacent jurisdiction not funding a project. CHV has no control over what other jurisdictions choose to fund. Without the other project, the CHV project would be meaningless.

5. What are the recommendations for new project or revised recommendations?

CHV will continue to:

- Participate and adopt MHFD master plans affecting Arapahoe County.
- Participate and adopt MHFD FHAD studies affecting Arapahoe County.
- Enforce our floodplain regulations
- Participate in the NFIP
