# 2025 Quincy Farm Annual Plan

**January 5, 2025**

*Developed by Cherry Hills Land Preserve (“CHLP”), a local nonprofit founded in 2005, in collaboration with the City of Cherry Hills Village (“the City”) staff.*

## **Introduction**

Under a Memorandum of Understanding executed in December 2021, the City and CHLP began an annual planning process for Quincy Farm. The plan is presented each year to the City Council for approval prior to execution. Part of CHLP's responsibility in this planning process is to secure community input at programs and events throughout the year.

---

---

## **CHLP’s Mission at Quincy Farm**

To inspire curiosity and learning about nature, conservation, and the history of the local area through educational experiences.

---

---

## **CHLP’s Vision for Quincy Farm**

Quincy Farm will be an integral part of the educational and recreational infrastructure of the City of Cherry Hills Village; a place of experiences that reminds our community of its agricultural heritage; a place of natural beauty and open spaces; a place that provides a rich habitat for local flora and fauna; a place that promotes the conservation values of the property; and a place that centers and enriches the Cherry Hills Village community.

---

---

City of Cherry Hills Village

## **CHLP's Role at Quincy Farm**

- Provide educational programs that advance the CHLP mission and bring us together as a community
- Engage and inform residents on the value of this historic Farm and its open space
- Collaborate with the City on planning and strategy for property improvements so current and future generations can enjoy this unique community asset
- Raise funds to support 100% of CHLP's programming and outreach for Quincy Farm
- Promote community access to Quincy Farm while protecting its natural open space

---

---

## **Cherry Hills Village Master Plan**

The 2025 Annual Plan for Quincy Farm supports the 2022 Cherry Hills Village Master Plan vision that includes:

- Natural open space
- Views
- A safe and serene environment

*Photo by CHV Staff*

City of Cherry Hills Village

## 2024 Quincy Farm in Review

2024 was a truly transformative year at Quincy Farm. After many years of dialogue and deliberation, the City and CHLP have carried out a variety of critical improvements to the site and have dramatically increased awareness of Quincy Farm in the community.

### **City of Cherry Hills Village Key Accomplishments**

- The City began a major renovation of the Big Barn, with necessary structural repairs to preserve the Barn for future generations
- Initiated the Quincy Farm Pond rehabilitation project and received a \$241,000 grant from Arapahoe County Open Space towards the project
- Completed a trail improvement to allow visitors to enjoy the scenic and expansive natural open space on the west side of Quincy Farm
- Installed new stairs from the High Line Canal to the west side
- Developed 2024 Landscape Maintenance Plan

*Photo by CHV Staff*

## Cherry Hills Land Preserve Key Accomplishments

- Raised over \$150,000 for its operating budget and \$125,000 in support of the Big Barn renovation project
- Doubled community outreach from 2022 through new social media efforts (Instagram) email campaigns, newsletters, Village Crier articles, and word-of-mouth marketing (see Attachment C), resulting in a dramatic increase in attendance at events and programs
- Created 4 new successful programs this season that served both adults and families and helped attendance grow from 810 in 2023 to 1,348 in 2024 (see Attachment B)
- Added 5 new ambassadors with school-aged children who live in the neighborhoods of Cherry Hills Village where more awareness of Quincy Farm was needed
- Hosted a Barn Party with 165 guests at the Village Club while the Big Barn was under construction. Signage, speeches, and handouts focused on Quincy Farm. All proceeds benefited CHLP's work at Quincy Farm
- Harvested honey from the Farm's bees to sell and give away

Photo by CHLP Staff

## **2025 Quincy Farm Annual Plan**

### **City of Cherry Hills Village | Site Improvements | East Side**

The barnyard area serves as the anchor for small community events at Quincy Farm because it has a variety of structures and open areas with historic resonance and programmatic flexibility.

#### **Big Barn**

The Big Barn renovation will be completed in early 2025, providing an all-weather, flexible interior gathering area but still retaining its historic character. CHLP will carry out interior projects (including memorabilia, picture gallery, ribbons, saddles, etc.) in the Big Barn to preserve the historic feel and support planned uses for the new gathering space. The City will create and place plaques on the stalls and a communal sign inside the gathering space to acknowledge the CHLP Big Barn donors.

City of Cherry Hills Village

## Farmhouse

The Farmhouse is directly across from the Big Barn on the east side of Quincy Farm. It functions as an essential support structure to the Barnyard. In 2025, the City will carry out a feasibility study for a renovation of the Farmhouse. The feasibility study will include estimated costs for asbestos remediation, updated kitchen facilities, re-painted interior and refinished floors, and roof replacement. It will also include conversion of an existing first-floor bathroom to an improved and ADA-compliant restroom, as there are no restroom facilities in the Big Barn.

*Photo by CHV Staff*

## Landscape Plan

The City will create a landscape plan for the east side with input from CHLP. The plan will include locations of new plantings and trees and possible locations for raised garden beds to be used for programming. It will include a crusher fine trail from the back of the Big Barn to the old Pony Club arena and around the east side pasture. CHLP will help guide the placement of the path to ensure a positive visitor experience.

## Pastures (east side)

The City will continue to revitalize dryland pastures on the east side of the Farm, using guidance from the report and recommendations provided by CSU Extension specifically for the property. Staff planted test patches of winter wheat and clover last fall. The entirety of the pastures will be seeded in the spring based on how the plots perform. Weed treatment will continue to be provided by the City's contractor (Weed Wranglers).

## Footbridge Replacement

In 2024, City staff worked with CHLP to determine a design for the bridge. Following those discussions, the City posted a Request for Qualifications to gather pricing for custom wooden bridges. Staff will coordinate completion of the replacement project in 2025 in conjunction with other City projects that will impact the High Line Canal trail (trail resurfacing and the pond project referenced in the next section of the Plan).

City of Cherry Hills Village

## **City of Cherry Hills Village | Site Improvements | West Side**

### **Hopkins House**

The Hopkins House, the oldest and most significant structure at Quincy Farm, provides a historical and visual anchor to the site. In 2025, CHLP and the City will continue to discuss potential uses for the Hopkins House, utilizing input from the community gathered by CHLP.

While the City already has cost estimates for the basic preservation of the Hopkins House, it will secure costs as to how to make the building accessible for community use. These include costs to create an accessible entrance to the first floor and an ADA-compliant restroom. City staff will also consider potential grant opportunities for the structure.

*Photo by CHLP Staff*

### **Quincy Farm Pond**

The pond is a key feature of Quincy Farm as it attracts waterfowl and other wildlife, which is crucial to the educational experiences at Quincy Farm and to those walking on the High Line Canal. In late 2024 and early 2025, the City will dredge the pond and the area will be replanted with diverse species to provide improved habitat for wildlife.

*Game camera photo from pond*

City of Cherry Hills Village

## **City of Cherry Hills Village | Site Improvements | Entire Property**

### **Signage**

The City will place a simple Interpretive sign on the history of Quincy Farm in the Barnyard, with an outdoor brochure box that includes a visitor map. CHLP will provide input. The City will also create a sign that identifies the Hopkins House and its historical significance and install it near the house. An interpretive sign adjacent to the Quincy Farm Pond will be installed following the completion of the pond project. In addition to the above planned signage, the City and CHLP will explore a comprehensive sign plan for the property.

---

### **City of Cherry Hills Village & Cherry Hills Land Preserve | Future Planning**

Both the City and CHLP will work together in 2025 to solidify the roles each entity has at Quincy Farm and to complete a vision for the future.

### **Visioning**

In 2025, City staff and CHLP will review past visions for the Farm, including previous visions created by the Quincy Farm Visioning Committee, the Quincy Farm Committee, and the Cherry Hills Land Preserve's Strategic Roadmap. The team will develop a shared vision for the Farm; elements of the shared vision could include discussions on future programming, use of structures and maintenance needs. The vision will be presented to City Council in 2025.

### **Evaluate the Memorandum of Understanding**

Once the shared vision is established, City staff and CHLP will review the existing Memorandum of Understanding to make it consistent with the vision. Any provisions of the MOU that are no longer applicable, or which are not clear, will be identified and amended or deleted. The goal is to clarify respective roles and create a framework for working together. The team will present an updated agreement to City Council for approval.

---

## Cherry Hills Land Preserve | Fundraising

Please reference Attachment E for the 2025 Cherry Hills Land Preserve budget.

### **Operating Funds**

CHLP will continue to raise funds to support 100% of CHLP's programming, marketing, and outreach for Quincy Farm.

### **Capital Funds**

CHLP has received pledges for the full \$150,000.00 committed to the Big Barn rehabilitation project. It will collect the remaining funds (\$27,500.00) and deliver them to the City per the schedules in Resolution 23; Series 2024 and Resolution 3; Series 2025 approved by City Council.

### **Barn Party**

Building on past successes of this event, CHLP will continue to host an annual party to raise funds and awareness for Quincy Farm programs.

---

## Cherry Hills Land Preserve | Programs and Events

CHLP will focus on using the renovated Big Barn and the rehabilitated Quincy Farm Pond in its 2025 programs and events. CHLP will build on the success of past programs (see Attachment B) and establish **signature series** (gardening, flowers, horses, farm animals, birds, bees) and **speaker series** (water, trees, sustainability, nature, climate change) that fulfill and reinforce the conservation values of Quincy Farm. Please reference Attachment F for the list of anticipated CHLP programs and events for 2025.

*Photo by CHLP Staff*

*Photo by Troy Brienzo*

Programs continue to fit into each of three strategic themes:

- Sustainability
  - Gardening, landscaping, and flowers (Denver Botanic Garden, local gardeners, floral designers)
  - Water (focus on rehabilitated new Pond, High Line Canal Conservancy, The Nature Conservancy)
- Nature and Conservation
  - Art in nature (Cherry Hills Village Elementary art teachers, landscape painters)
  - Birds (Denver Audubon, Hawkquest, Raptor Foundation, High Line Canal Conservancy )
  - Bees (Jefferson County Bee Association); Butterflies (Butterfly Pavilion)
- Heritage / History
  - Horse events (Pony Club, Village Club)
  - Barnyard animals (goats, chickens, turkey, pigs)
  - 1898 Hopkins House (Historic Denver, State Historic Fund)
- Donor appreciation - CHLP will host small events to celebrate the renovated Big Barn (e.g. ribbon cutting, major donor dinner).
- Community-wide events - in addition to donor appreciation and programs, CHLP will organize several events to celebrate the renovated Barn and rehabilitated Pond.

## **Cherry Hills Land Preserve | Outreach**

CHLP spends a significant amount of time and money to educate, engage, and inspire the community at Quincy Farm. Plans for 2025 will center around promoting and celebrating the renovated Big Barn and rehabilitated Pond.

### **Increasing Community Awareness**

CHLP will continue to review advertising effectiveness and adjust plans for 2025 accordingly in all marketing efforts (Website, Village Crier, emails, newsletters, social media). The Land Preserve will increase Quincy Farm's social media presence as a way of building community around the mission, recruiting donors and volunteers, and communicating information quickly and effectively. Additionally, CHLP will establish an email capture initiative to double the number of opt-in newsletter/email recipients. CHLP will explore how to connect the CHLP database to a better email platform to achieve more efficiencies with outreach.

### **Quincy Farm Ambassador Outreach**

Launched in 2023, the Quincy Farm Ambassador group now includes 16 residents from various geographic areas of Cherry Hills Village who are strong supporters of Quincy Farm, and who help spread awareness of the Farm and its programs. CHLP plans to add 6 more ambassadors with young families in 2025, and 25 more volunteers to help with outreach, programs, and events.

### **Partners**

CHLP will continue to build relationships with organizations that share the Quincy Farm mission of nature, sustainability, and open space like High Line Canal Conservancy, Denver Botanic Gardens, Denver Audubon, and schools such as Cherry Hills Village Elementary, Kent Denver, and St. Mary's.

## Signage

**Welcome to Quincy Farm**

Take a step back in time...  
Quincy Farm is a unique, 17-acre farm that was originally donated to the City of Cherry Hills in 1989. The farm is a unique property nested among century-old, mature trees, fields, and meadows, and houses a collection of historic structures, including the original farm buildings, a barn, and a 1920s house and the only 19th-century farmhouse in the area.

**The Investment**

Source	Amount	Date
City of Cherry Hills Village	\$410,000	Approved by City Council 7/1/23
Cherry Hills Land Preserve's Big Barn Campaign Goal	\$150,000	Outreach to Cherry Hills community

## Quarterly Newsletters

**News, Views & Happenings at Quincy Farm**

**Spring Edition 2024**

**Hello Quincy Farm supporters!**  
As spring unfolds, there's no better way to embrace the awakening of nature than spending time at Quincy Farm. With April quickly approaching, there are many ways to get outside here — simply stop by the barnyard when walking on the High Line Canal or join us for a planned activity. Before listing the upcoming events, I wanted to share some updates on various site improvements from the approved [2024 Quincy Farm Annual Plan](#) that have begun!

**West Area Nature Trail Improvement**  
In mid-March, The City of Cherry Hills Village began work on phase one of the west side Nature Trail, moving from a periodically mowed path to a low-impact pedestrian trail. There has been some confusion recently about the Nature Trail project, and I wanted to clarify some important facts here:

This improvement has been carefully managed by the Conservation Easement, and input from environmental experts, and advances the Conservation Easement's vision for the west side of the Farm to be "primarily a natural area with limited public access" P4.A.4. A crusher fines trail (open dawn to dusk) will keep pedestrians from walking into the pastures, reduce weeds from spreading from tractor mowing, and provide a low-impact way for trucks to water the treasured

**News, Views & Happenings at Quincy Farm**

**Winter Edition 2024**

**Happy New Year** to all of our supporters, and thank you for being a member of our Quincy Farm family!

A heartfelt thank you goes out to our community donors, whose contributions during our end-of-year campaign and sponsorship of the recent Barn Party have been invaluable. These contributions allow Cherry Hills Land Preserve to continue to engage the community through outreach, programs, events, and tours to help fulfill the vision for Quincy Farm. For a complete list of donors, please [click here](#).

This past year, we successfully doubled the number of visitors to Quincy Farm through events and programs like Organic Gardening, Denver Audubon Bird Walk, Adventures in Nature, and the Barn Party. We received positive feedback for all our family and adult activities! Your contributions made these successes possible, and we are truly grateful.

We look forward to seeing you at Quincy Farm for our spring kick-off Earth Day celebration on April 21st, and as always, please reach out if you are interested in volunteering!

### Recent Programs

**Creepy Crawly & Birds of Prey**  
October 6, 2024  
10 am - 12:00 pm  
at Quincy Farm

We had a fabulous time and a big turnout with 2 nature partners of one event at Quincy Farm! Hawk-eared & Butterfly Pavilion are on site for the old kids and kids or heart on this beautiful fall morning at the Farm. With the Big Barn Renovation Project underway and Adventures in Nature returning in 2025, we were pleased to bring these exciting live demonstrations on the west side soon.

**Young at Art**  
August 8, 2024  
3:00 - 5:00 pm  
at Quincy Farm

Kids loved the afternoon of arts & crafts made inside and around Quincy Farm's Big Barn! Young artists took on magical work with Julie Bennett, Cherry Hills Village Elementary art teacher, and explored the grounds, searching for natural "treasures" to be used in creating beautiful painter art. Kids used sticks, pine, yarn, beads, and more to decorate their painter pots, and played in the dirt, potting in real flower and

**Family Birding**  
August 10, 2024  
8:30 - 10:00 am  
at Quincy Farm

Kids brought their binoculars (or borrowed ours) and joined us for a morning of birding at Quincy Farm with Dennis Audubon. It's always so wonderful when we set out in search of our feathered friends at the Farm. We took a peak at who lives in the trees and which feathered bird frequent the pond and let our ears come alive with the sights and sounds of these Colorado beauties. We all loved getting outside with friends at Quincy Farm!

### WELCOME TO QUINCY FARM

**Timeline of Quincy Farm**  
1833-1897 - US Land Patent transfers between Union Pacific Railway, South Platte Land Company, and National Bank of Commerce.

The Farm is listed on the National Register of Historic Places, and the buildings and pastures are a pictureque part of the landscape. The Farm was originally gifted to the City of Cherry Hills Village by Catherine ("Cecil") H. Anderson and placed under a conservation easement, permanently preserving this property for future generations.

Cherry Hills Land Preserve is a local nonprofit partnering with the City of Cherry Hills to revitalize QF and provide educational experiences that connect people to nature.

**1897 - The "Quincy Farm" come into being when James C. and Grace Hopkins purchased the land and built their house (still standing next to the Quincy Avenue on the west side of the farm).**

**1920 - Joseph Anton and Vilma Koenig purchase the farm.**

**1922 - The Koenicks sell the farm to Mervin C. Blomker to raise money for medical care after both father and son are involved in farming accidents.**

**1924 - Blomker moves onto the farm and constructs the main house and all farm buildings on the east side. The farm property for orchards is known as the "Blomker Estate".**

**1925 - The farm is sold to an investment syndicate.**

**Later that year, Ed and Mavis Horner purchased the 28-acre parcel containing the buildings. Ed named it "Quincy Farm" and raised Quarter Horses on the property.**

**1934 - The investment syndicate sells other parcels to Kent School for Girls and Denver School, which later merge into Kent Denver School.**

**1944 - Ed and Catherine H. Anderson purchase the 28-acre parcel and part of the farm. The farm is now 17.5 acres. Ed kept horses and ran the Pony Club in Cherry Hills Village for many years.**

**2007 - Cecil Anderson sells a conservation easement on her farm and donates it to the City of Cherry Hills Village.**

**2016 - Cecil passes away, and Cherry Hills Village begins managing the farm.**

**2021 - CHLP begins partnering with the City to provide educational experiences at the farm that connect people to nature and our local history.**

**2024 - CHLP begins partnering with the City to provide educational experiences at the farm that connect people to nature and our local history.**

## **Potential Grant Opportunities for Upcoming Projects**

Per the Memorandum of Understanding, each Quincy Farm Annual Plan should identify possible grant opportunities. Below is a brief list of possible options. In 2024, the City secured a grant from Arapahoe County Open Space with support from the Cherry Hills Land Preserve.

### **Arapahoe County Open Space (total received to date for Quincy Farm: \$462,319)**

The City previously received three grants from Arapahoe County Open Space totaling \$221,231 for planning, irrigation, and tree work at Quincy Farm. In 2024, City staff applied for and received a \$241,088 grant that will offset the costs of the pond rehabilitation project. The City is eligible to apply for the County's Standard Grant each year, for amounts ranging from \$150,001-\$600,000.

### **State Historical Fund (total received to date for Quincy Farm: \$10,000)**

To complete the Archaeological Assessment of the Farm, the City applied for and received a \$10,000 grant from the State Historical Fund in 2017-2018. If the buildings on the Farm are maintained so that the historic designation remains, the City is eligible to apply for SHF's Competitive Grant, for amounts between \$50,001-\$250,000. It is important to note that SHF is aware that projects often span multiple years, and projects can be phased so that entities can apply across multiple years for the same structure. These grants can also entail additional property protections on the building (a covenant or easement).

### **Great Outdoors Colorado**

The City is eligible to apply for GOCO's Community Impact Grants (\$100,000 - \$1,000,000). This funding is available "...to develop and revitalize parks, trails, school yards, fairgrounds, environmental education facilities, and other outdoor projects as identified and prioritized by the communities they serve". Projects must align with the values identified in GOCO's 2020 Strategic Plan.

<b>Quincy Farm Budget (2025 CHLP Estimated Expenses)</b>		
<b>Project</b>	<b>Cost</b>	<b>Notes</b>
<b>CHLP Operating Costs:</b>		
Programming	\$122,500	Programs/events, outreach and marketing, website, Ambassador, barn decor; majority of Exec Director salary
